

## Ideation Phase

### Define the Problem Statements

|               |                                                    |
|---------------|----------------------------------------------------|
| Date          | 1 October 2026                                     |
| Team ID       | SWTID-2026-1665                                    |
| Project Name  | EduGenie: Google Gemini Powered Learning Assistant |
| Maximum Marks | 2 Marks                                            |

#### Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

|                            |                                                                                                       |                                                                              |
|----------------------------|-------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------|
| <b>I am</b>                | <i>Describe customer with 3-4 key characteristics - who are they?</i>                                 | Describe the customer and their attributes here                              |
| <b>I'm trying to</b>       | <i>List their outcome or "job" the customer is trying to achieve</i>                                  | List the thing they are trying to achieve here                               |
| <b>but</b>                 | <i>Describe what problems or barriers stand in the way - what bothers them most?</i>                  | Describe the problems or barriers that get in the way here                   |
| <b>because</b>             | <i>Enter the "root cause" of why the problem or barrier exists - what needs to be solved?</i>         | Describe the reason the problems or barriers exist                           |
| <b>which makes me feel</b> | <i>Describe the emotions from the customer's point of view - how does it impact them emotionally?</i> | Describe the emotions that result from experiencing the problems or barriers |

#### Example:

|                           |                                                  |                                    |                                                                                   |                                          |
|---------------------------|--------------------------------------------------|------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------|
| I am<br><b>a traveler</b> | I'm trying to<br><b>book flights on my phone</b> | But<br><b>it takes a long time</b> | Because<br><b>the website is not responsive and doesn't have a mobile version</b> | Which makes me feel<br><b>Frustrated</b> |
|---------------------------|--------------------------------------------------|------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------|

### EduGenie Customer Problem Statements:

| <b>Problem Statement (PS)</b> | <b>I am (Customer)</b>                                                                    | <b>I'm trying to</b>                                          | <b>But</b>                                                             | <b>Because</b>                                                                        | <b>Which makes me feel</b>                         |
|-------------------------------|-------------------------------------------------------------------------------------------|---------------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------------------------------------|----------------------------------------------------|
| <b>PS-1</b>                   | A school or college student who studies alone and has limited access to personal tutoring | Understand difficult topics and prepare for exams effectively | Textbooks and search results are scattered, generic and hard to follow | I do not get instant, personalized explanations matched to my level                   | Confused, stressed and unsure about my preparation |
| <b>PS-2</b>                   | A self-learner or working professional with limited time who wants to learn a new skill   | Follow a clear, structured study plan and track my progress   | I cannot tell what to study first or whether I am actually improving   | Most platforms offer fixed courses with no adaptive guidance, feedback or practice    | Unmotivated, overwhelmed and directionless         |
| <b>PS-3</b>                   | A teacher or tutor who handles many learners with little preparation time                 | Create quizzes, summaries and clear explanations quickly      | Preparing learning material manually takes hours every week            | I lack an AI-powered tool that generates and adapts educational content automatically | Overworked and short on time for actual teaching   |
